There isn't much to this game. No trading cards, no steam achievements, and all you can do in-game is care for your horse and so training or speed trials. There is no open world or free-roam option or a chance to finish quests. You can see everything in under an hour. I wouldn't reccommend this game except your younger (under 14) players.. This Game is pure\u2665\u2665\u2665\u2665\u2665\u2665 Its just bad, and the developer should be ashamed of themselves.
